7.51 acres waiting for your new home, a couple of potential building sites. You can build off the entrance from the cul-de-sac, which is in an area of nice homes and has access to a high producing well (it would be shared with the home next door), or build up in the treed area where another well is located and has a private setting with views of the surrounding mountains. Septic approval was granted many years ago up on the private setting. Home site approval would need to be applied for. Buyer to do their due diligence. Call, text or e-mail today for all the details! #220170854-m2o ~ Click on Photo for more pictures!
