This 477 acre property offers seclusion, recreation, and abundant opportunities. Host to a rock quarry, existing electrical service, large trail network, pasture areas, and even an oval racetrack, the land gives a potential buyer the ability to build a lifestyle that is one with the land and Reeves Creek Road provides easy access to the North and South sections . The rock quarry on the North side has been leased in the past and could generate instant income off of the property. In the past, the pastures were home to cattle that were brought in off of BLM grazing grounds and fed on site during the winter via a silage pit built into the hillside. The valleys and peaks range from 1280 feet to 1440 feet providing privacy as well as views of the sunset beyond beautiful Eight Dollar Mountain to the west.
